

## Kelveden "Secret" Nuclear Bunker

9<sup>th</sup> May 2009

Essex & Kent Regions

# Welcome to the ex Government Regional HQ. The home of Central Government in time of nuclear war.

What you see before you is the guardhouse defending the entrance to the massive 3 level bunker designed to house up to 600 personnel, from scientists to Prime Minister.

This bunker was built to enable government to continue functioning for a minimum of 3 months after the bomb had gone off.

Don't forget this bunker was active until the end of 1994. It could still be re-activated. There are an ever increasing number of nations with nuclear capability. We suggest you visit us now while you still can.
